

Agenda

Green Tech Pitching

16 November 2022 | Online

About the organiser

The event is organised by the EU-Japan Centre for Industrial Cooperation as part of the activities of the [EU-Japan Business Cooperation with ASEAN, Africa and Latin America Helpdesk](#).

Outline

The Green Tech Pitching will showcase a selection of EU companies developing innovative green technology and projects that could support Vietnam in its green transition. This event aims at connecting the pitching companies with potential Japanese and Vietnamese partners for joint projects in Vietnam.

If you are a Japanese or a Vietnamese company looking for innovative green solutions for your projects in Vietnam, please join our pitching event.

The event will be held in English and Japanese (simultaneous interpretation available).

Pitching line-up

- ◆ AKROCEAN: Ocean data as a service for offshore wind projects

<http://www.akrocean.com/>

AKROCEAN provides turnkey data delivery services to support the development of offshore wind projects worldwide.

- ◆ Brite Solar: Innovative transparent solar panels

<https://www.britesolar.com/>

Brite Solar develops transparent solar panels for applications in greenhouses and Agri-PV systems to achieve agricultural decarbonization.

- ◆ Oleifici Masturzo: Innovative olive farm for a sustainable olive oil production

<https://oliomasturzo.it/>

Oleifici Masturzo uses innovative and sustainable agricultural practices to grow olives and produce award-winning olive oil. The company aims at expanding its sustainable olive farm to Asia.
